Welcome to Wakefit Plus

Wakefit Plus Series is a state-of-the-art premium range of mattresses from the House of Wakefit. Designed for those customers who want more out of their mattresses. Made from luxury grade materials & rigorously tested for perfection, our Wakefit Plus Series mattresses ensure that you & your family sleep blissfully on mattresses built to last a lifetime.

10+ Years of Industry Experience

9+ Own Manufacturing Units

3Lac+ Happy Reviews

1 Million+ Mattresses Sold

1500+ R&D Hours

So flip this page and step into an oasis of comfort with our flagship range of mattresses crafted with a perfect combination of science, research & innovation, quality checks, industry experience and our love for good sleep.

Making of a masterpiece mattress for your bedroom

Test. Test. Sleep. Repeat.

At Wakefit Plus, we take sleep seriously so that every night that you sleep on our mattresses feels like a staycation. We strive to ensure that going to bed is not only the most comfortable part of your day but also the most awaited. This level of perfection cannot come without putting our mattresses to rigorous tests so that they perform to deliver the best sleep of your life no matter the place, weather, or time.

Hot Air Oven Test

To ensure your mattress foam gives you the same comfort across variable temperatures without changing its thickness.

Foam Compression Test

To ensure your mattress foam maintains its density, shape & remains firm under heavy load & temperatures without changing its thickness.

Elongation Testing

To ensure industry-standard elasticity for your mattress foam.

Humidity Test

To ensure your mattress foam keeps you comfortable across a range of humidity conditions.

Ball Resilience Test

To ensure your mattress foam is as bouncy as you need it to be.

Mattress Breathability Test

To ensure your mattress has proper air circulation to keep your body cool and give you a peaceful sleep throughout the night.

Body Contouring and Airflow Test

To ensure your mattress foam provides you comfort according to pressure points in your body.

Indentation Hardness test

Another test to ensure you get the perfect balance of firmness & softness in your mattress

Pounding Test

To ensure that your mattress foam performs even when subjected to varying levels of force.

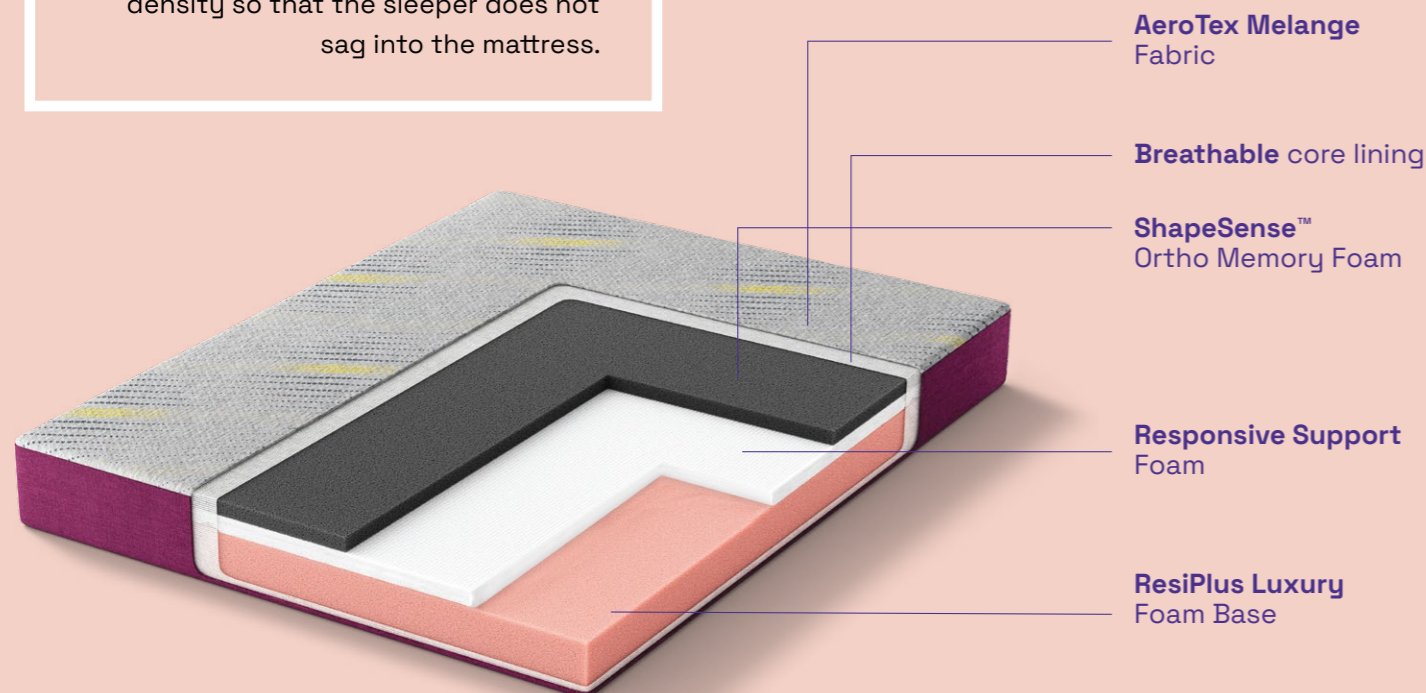

ShapeSense™ Ortho Plus Mattress

We perfected NASA's memory foam technology in our labs to create the ShapeSense™ Ortho Memory Foam. Years of R&D helped create a unique formulation with an open-cell structure & a scientific degree of viscoelasticity, creating elastic and flow-like behavior in our mattresses. Our ShapeSense™ memory foam takes the shape of your body and naturally aligns your spine to help you sleep healthier.

Perfect viscoelastic formulation allows the ShapeSense™ memory foam to respond to the sleeper's body pressure with the right thickness & density so that the sleeper does not sag into the mattress.

ErgoTech™ EcoLatex Plus Mattress

Optimal recovery at night is essential for an energized morning. We understand this, which is why our ErgoTech construction divides the body into 7 ergonomic zones - Head, Shoulder, Lumbar, Pelvic, Knee, Lower Leg & Feet. Each zone is designed to individually respond to specific parts of the body & give targeted support.

Duo Plus Mattress

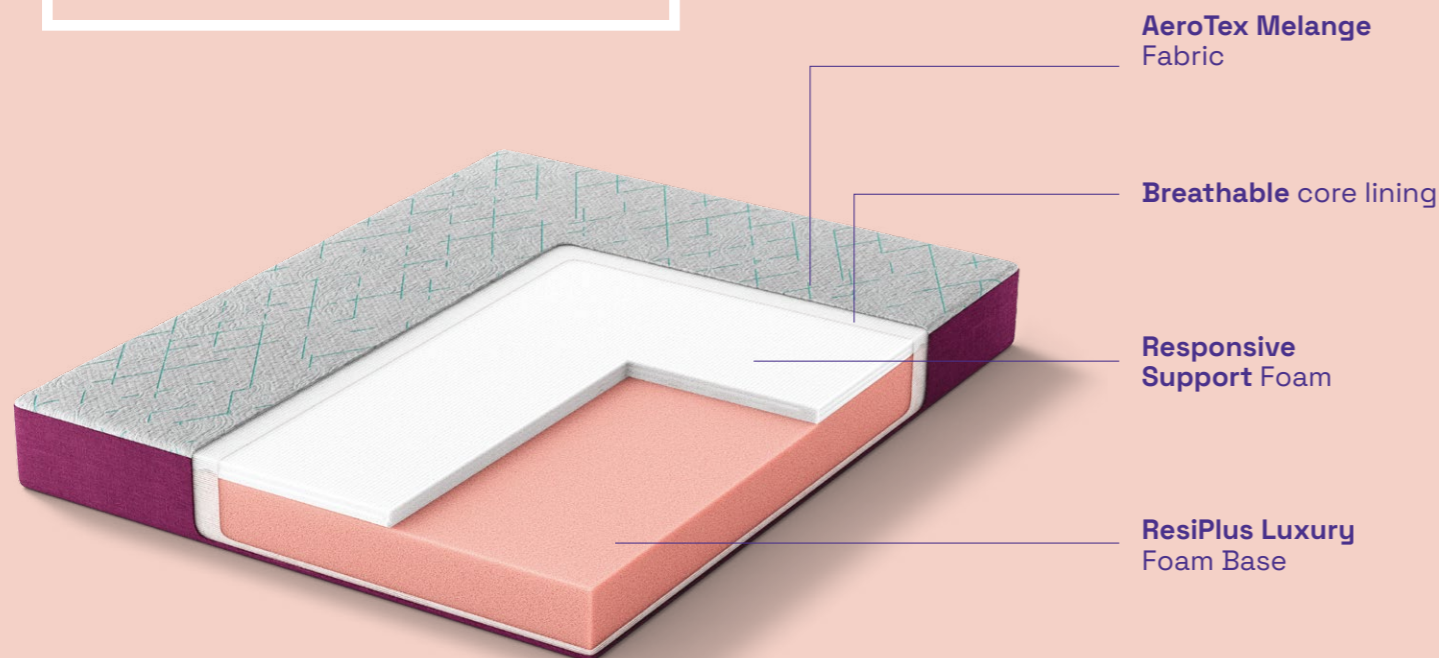

Our luxury grade dual sided mattress engineered for a pleasant sleep on both sides.

The Responsive Support Foam has less bounceback & provides medium soft comfort which is beneficial for side sleepers & people who prefer a softer comfort.

The ResiPlus Luxury foam base is our highest-density foam base. Apart from increasing the life of the mattress, it has more bounceback and gives extra firm support in response to the body's pressure.

ShapeSense™ Ortho Plus ActiveCool™ Mattress

The ShapeSense™ Ortho Plus ActiveCool™ combines our ShapeSense memory foam technology with our proprietary ActiveCool™ using water based polymers and Phase Change Materials (PCM) particles that absorb & release heat to regulate your body temperature while the advanced memory foam layer takes the shape of your body & naturally aligns your spine to give you the highest quality of sleep.

Perfect viscoelastic formulation allows the ShapeSense™ memory foam to respond to the sleeper's body pressure with the right thickness & density so that the sleeper does not sag into the mattress.
